RYMED SPECTRUM OF PROTECTION™

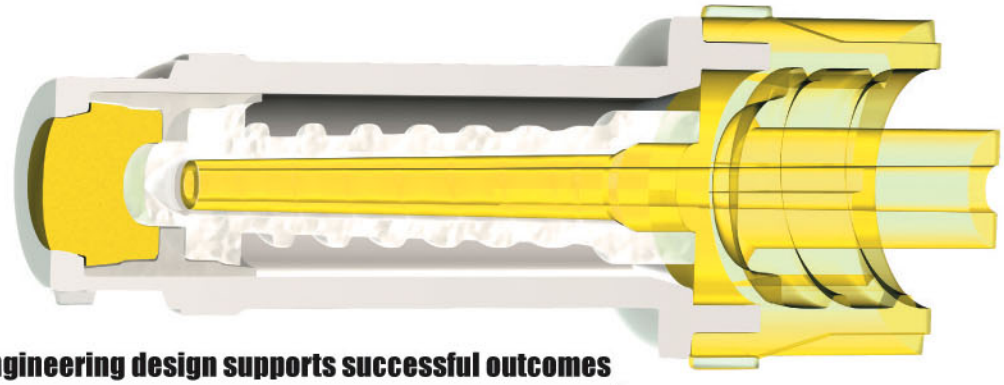
Intraluminal Protection System

InVision-Plus® EPI™

with Neutral Advantage™ Technology

For Visual Identification of Epidural Catheters

- Use as color safety alert for epidural catheters
- To address morbidity and mortality association with medication delivery errors through epidural catheters



Fail-safe engineering design supports successful outcomes

	10-Point Standard	InVision-Plus®
Infection Barriers	1 Smooth, swabbable septum surface	✓
	2 Septum seal integrity (with no gaps or openings)	✓
	3 Patented double microbial barrier	✓
Outcomes Enhancements	4 Straight-through fluid pathway	✓
	5 Zero dead space	✓
	6 Zero fluid displacement	✓
	7 Low priming volume at 0.022mL	✓
Clinical Benefits	8 100% effective blood clearing	✓
	9 Saline-only flushing option (Heparin-free)	✓
	10 No clamping sequence or positive pressure syringe technique required	✓
